The guys are Wowza continue to be hard at work pushing their platform - with **good success** as it turns out. They took first place in two categories at the **Streaming Media Reader's Choice Awards** for Best Streaming Innovation and Best Server Hardware/Software.

"The Streaming Media Readers' Choice Awards are the only awards of their kind in the online video industry," says Streaming Media magazine editor Eric Schumacher-Rasmussen. "While other awards focus exclusively on content, this is the only awards program that honors the technology that makes it all possible, and it's definitely the only one where the people decide who wins. And this year, more than 5,000 votes were cast for more than 200 nominees. Clearly, people care deeply about the tools they use to get their jobs done."

The full **press release** is **here**. Well done and well deserved guys, it's amazing what a dedicated team can achieve.
