Related Categories: Events, FMS, Videos & Players

Mark your calendar for this coming Wednesday, 17th November 2010. The OSMF User Group is hosting an online event to which everyone is welcome; the title: **Building ActionScript-Only State-of-the-Art Video Players -- An In-Depth How-To Code**

Walkthrough (Using Codebase of Open Source Strobe Media Playback)

The session is an online code walk-through of the open source **Strobe Media Playback** video player codebase.

The code walk-through will be led by **Andrian Cucu** who is Adobe's Project Leader on the Flash and Strobe Media Playback video player project.

To join, just go to the following link at the meeting time to join the OSMF User Group's Connect room:
