Join FMS Product Manager Kevin Towes for an online session titled 'FMS 4 on Amazon Web Services'. This presentation is part of the FMS Online User Group and takes place on Tuesday, January 18th at 12:00 Eastern / 9:00am Pacific (GMT-8).

Join Kevin as he reviews and demos Flash Media Enterprise Server 4 running on Amazon Web Services, Adobe's newest deployment option that makes it easy to access new Peer to Peer functionality and much more. You'll learn how to deploy your FMS applications quickly and affordably on Amazon Web Services and access the power of new features including major enhancements to playback experience, and quality of service, and support for F4F packaging for HTTP streaming.

If you're looking to include the FMS platform in your business, and are curious about the opportunities with Amazon Web Services, or just want to get the most out of your investment in Adobe Flash Media Server technology, this session is one you don't want to miss.
