What: "24-7 Live File to Live Playout Using AMS" with Kevin Johns and David Hassoun

When: Tuesday, May 21st

Time: 10:00 a.m. - 11:00 a.m. MDT

RSVP: <http://ams.groups.adobe.com/index.cfm?event=post.display&postid=46243>

Summary:

This will be a co-presentation between Kevin Johns from Level 3 and David Hassoun from RealEyes. Join us for this online session hosted by the Adobe Media Server User Group to learn how Level 3 is utilizing Adobe Media Server for 24-7 live linear broadcasting from VOD assets.

Level 3 has been working to create cost-effective, file to Live playout solutions for adaptive bit rate HTTP delivery. Level 3 will share their experiences in building an end to end IP playout solution based on the Adobe Media Server platform.

Then, meeting attendees will get a look under the hood with the basics for Server Side ActionScript (SSAS) and Adobe Media Server 5.0 as we walkthrough the key concepts from a server side application development perspective. You will have the opportunity to ask questions and learn from the best in the business, this meeting is not to be missed!
